

Xellia Pharmaceuticals demonstrates commitment to the fight against sepsis by providing support for Sepsis Awareness Month

Copenhagen, Denmark, 29 September 2020 - Xellia Pharmaceuticals ('Xellia'), a specialty pharmaceutical company focusing on providing important anti-infective treatments against serious and often life-threatening infections, announces support for Sepsis Awareness Month.

Sepsis is the third leading cause of death after heart disease and cancer in the USⁱ, affecting more than 1.7 million peopleⁱⁱ and killing more than 270,000 people within a single yearⁱⁱⁱ.

September has been designated as [Sepsis Awareness Month](#) by the Sepsis Alliance since 2011, with individuals, healthcare professionals, businesses and organizations from all areas of medicine, invited to help raise awareness each year.

In 2019, Xellia Chicago participated in a Sepsis 5k run to increase awareness around the disease. As a result of the COVID-19 crisis in 2020, the annual event cannot be held in person this year, therefore, Xellia Chicago instead led a company-wide Sepsis Virtual Run Challenge. On a global scale, on 26 September 2020, Xellia employees across 5 countries walked and ran 5 km distances to increase awareness.

Craig Boyd, President, Xellia North America, commented: *“One in five deaths worldwide are due to sepsis, and it is the leading cause of death in US hospitals^{iv}. At Xellia, we are proud to manufacture and produce key anti-infectives, to combat sepsis, and we understand the importance of delivering a consistent and reliable supply.*

“On behalf of the Xellia team, I'd like to thank every employee around the globe for joining Xellia Chicago in our Sepsis Virtual Run Challenge, and the provided support.”
